

Fundraising for students in dental schools.

Twinkles, with its popularity among the students attending schooling for dental professions, provides an excellent opportunity to raise funds for different school and charity projects. Twindent offers a program where students can raise funds by selling and bonding Twinkles at selected meetings or festivals. Students will buy Twinkles at a reduced price, and have booth sponsored and paid for by Twindent.

Application with the following information should be submitted to Twindent no later than 6 weeks before the event.

Prerequisites:

Applicants should be registered students in a dental profession, assistants, hygienists or dentists.

Bonding Twinkles should be performed by a student or registered dental professional.

All proceeds from sale and bonding services should go to approved fund. A report including sales reports, testimonials and photos should be submitted to Twindent no later than 4 weeks after event.

Good places to offer bonding of dental jewelry are street festivals with free general public access, malls, fashion events and school and university activities.

Twindent will provide detailed instructions and advise for booth setup and event marketing.

Some initial good advise to consider:

- People want to have their Twinkles bonded immediately, expect sales including bonding to be most successful.
- Bonding Twinkles in a booth attracts a lot of attention, and more customers.
- Booth size 9 x 9 ft is sufficient.
- Calculate 10 min per bonding.
- Booth should be manned with 2-3 persons.
